Updated: 31-12-2018

<sup>1</sup> Private consumption covers household consumption and NPISH consumption.

<sup>2</sup> Indicates the balance between the proportions of respondents reporting a positive and a negative change.

<sup>3</sup> All positions with residents of other euro area countries, including the ECB, are classified as domestic positions as of 1 January 2015, when Lithuania joined the euro area.

Values revised following the last data update are presented on a grey background.
