The increase of official reserve assets in April was impacted by LTL 862.4 million other financial institution and LTL 78.6 million central government deposits at the Bank of Lithuania, LTL 33.1 million external liabilities of the Bank of Lithuania. The slower growth of official reserve assets was due to the LTL 58 million less amount of currency in circulation, the LTL 8.4 million less value of special drawing rights and an LTL 4 million decrease in other factors.
