<sup>1</sup> Unless otherwise specified, monthly changes in euro are presented as transactions, i.e. they are calculated by taking the difference between end-of-month outstanding amounts and then removing the effects of revaluation adjustments, exchange rate adjustments, loan write-offs and reclassifications.

<sup>2</sup> The household sector consists of households and non-profit institutions serving households.

<sup>3</sup> The financial sector consists of Lithuania's investment funds and other financial intermediaries, as well as insurance corporations and pension funds.
