At the end of February 2012, official reserve assets made up LTL 22.2 billion (EUR 6.4 billion). Over February they grew by LTL 2.2 billion or 10.8 per cent.

### Official reserve assets

*End-of-period; LTL billions*

Official reserve assets grew in February driven mainly by an increase of LTL 2.4 billion in central government deposits with the Bank of Lithuania and a surge of LTL 122.3 million in other factors. The growth of official reserve assets however was contained by a decline of LTL 260.4 million in the external liabilities of the Bank of Lithuania, a drop of LTL 93.6 million in deposits of other MFIs with the Bank of Lithuania, and a decrease in currency in circulation and in the value of Special Drawing Rights (SDRs) respectively by LTL 30.3 and 10.1 million.
